## about us

Prime Nursing Care – Land | Sea | Air® was founded in 2004 by Franziska Hollenstein, RN, an accomplished Flight Nurse who has flown over 2500 repatriations. She has proudly been providing professional medical care and assistance during transport of patients around the globe for almost two decades.

With the growth of Prime Nursing Care – Land | Sea | Air® and the expertise of our multilingual, compassionate and dedicated staff, we have been successfully repatriating a wide variety of patients from all continents.

## services

- commercial medical escort flights / stretcher flights / air ambulance flights and wing-to-wing transfers
- ground ambulance / limousine / arrange receiving facility in Florida
- repatriation from a cruise ship / non-medical escorts

### Commercial Medical Escorts

Prime Nursing Care – Land | Sea | Air® has the understanding, competence, equipment, and caring medical professionals to assist patients on commercial flights all over the world. (Flight Physicians / Flight Nurses / Respiratory Therapists / Flight Paramedics)

### Stretcher Flights

Our staff is well-versed to provide prime nursing care on international Stretcher Flights for patients unable to fly in either First Class or Business Class.

### Air Ambulance

When the medical condition of your loved one is critical and requires an Air Ambulance flight, we guide you safely to our preferred and highly reputable Air Ambulance Service.

### Ground Ambulance / Limo

Whether the mission requests a Ground Ambulance or Limo, we arrange this part of the repatriation as well.

**Please contact us directly 24/7 with any questions or comments you may have.**

## equipment

The competent staff of Prime Nursing Care – Land | Sea | Air® carries only top of the line equipment to attend to the medical needs of your valued patient, loved family member or dearest friend.

FAA approved Oxygen Concentrator / Designated Medical Backpack for different mission types, all with the required medications / Pulse Oxymetry / Blood Pressure Monitor / Stethoscope / Blood Glucose Meter / Smart Phone to stay in touch / Satellite Phone for a remotest repatriation / Tablet for electronic charting

### Superior Oxygen Delivery
